### **Award-Winning Excellence: Best Design in Sharjah 2023**

We are honored to have been recognized with the \*Best Design Award in Sharjah for 2023, a testament to our innovative approach, creativity, and dedication to delivering exceptional engineering solutions. This prestigious award highlights our ability to combine functionality, aesthetics, and sustainability in our designs, setting new benchmarks in the industry. Project: HH Khadija bent khweled mosque

Winning the Best Design Award in Sharjah 2023 is not just a milestone for Smart vision it is a validation of our core values and our mission to deliver excellence in every project.

This achievement would not have been possible without the talent, dedication, and collaboration of our team. From architects and engineers to project managers and sustainability experts, every member of our team played a crucial role in delivering this award-winning project.

# Prizes and Recognitions

# About Us

Smart vision group is a leading engineering consultancy firm dedicated to delivering innovative, sustainable, and cost-effective solutions. With a team of highly skilled engineers, project managers, and technical experts, we specialize in providing end-to-end engineering services tailored to meet the unique needs of each project.

Founded in **2013**, we have built a reputation for excellence, reliability, and professionalism. Our commitment to quality, safety, and environmental sustainability drives everything we do, ensuring that we deliver projects on time, within budget, and to the highest standards.

We are committed to providing accessible, high-quality engineering consultancy services to our clients. With three branches in the **UAE (Dubai, Abu Dhabi, and Sharjah)** and **two branches in Egypt (Cairo)**, we are strategically positioned to serve a diverse range of projects and clients across the region.

At Smart Vision group we take immense pride in our extensive track record of delivering excellence across the UAE. With over **3,000** successfully projects, we have established ourselves as one of the most trusted and experienced engineering consultancy firms in the region. Our portfolio spans all types of buildings and infrastructure, reflecting our versatility, expertise, and commitment to quality.

## Diverse Project Portfolio

Our **3,000+** projects encompass a wide range of sectors and building types, including:

- Residential Developments: High-rise towers, villas, and affordable housing complexes.
- Commercial Buildings: Office buildings, retail malls, and mixed-use developments.
- Industrial Facilities: Warehouses, factories, and logistics hubs.
- Healthcare Facilities: Hospitals, clinics, and medical centers.
- Educational Institutions: Schools, universities, and training centers.
- Hospitality Projects: Hotels, resorts, and leisure destinations.

**Our company holds a high classification and excellent standing across** all relevant government authorities, reflecting our commitment to excellence and compliance. With certifications and approvals in architectural, structural, and mechanical services, we have consistently demonstrated our ability to meet government standards and regulations. This classification enables us to participate in major projects, ensuring our clients receive reliable and government-approved solutions.

#### Expertise and Collaboration

At smart vision group our greatest asset is our team of highly skilled professionals. More than **120 engineers** bring

#### **Our recognized classification also highlights:**

Quality Assurance: Consistent delivery of projects that meet regulatory requirements. Eligibility for Government Contracts: Approval to bid on and execute public sector projects. Sustainability and Safety Standards: Full adherence to environmental and safety guidelines. This distinction reinforces our reputation as a trusted engineering consultancy partner for both public and

Established in United Arab Emirates was a big chance for us, UAE is a global hub for innovation, engineering, and construction, making it an ideal location for engineering consultancy firms to thrive. Working in the UAE offers unique opportunities to gain knowledge, experience, and exposure to cutting-edge technologies and world-class projects private sector clients.

1. Exposure to Mega Projects: ambitious mega-projects exposure has enhanced our ability to deliver high-quality solutions under challenging conditions.
2. Learning from Global Experts: The UAE attracts top talent and leading firms from around the world. Collaborating with international experts has allowed our team to learn from diverse perspectives and adopt global best practices.
3. Focus on Innovation: The UAE's emphasis on innovation has encouraged our team to explore new technologies and methodologies.
4. Regulatory Excellence: regulatory framework ensures high standards of safety, quality, and sustainability. Navigating these regulations has sharpened our team's ability to deliver compliant and efficient solutions.
5. Cultural Diversity: The UAE's multicultural environment has enriched our team's ability to work with clients and stakeholders from diverse backgrounds. This cultural competence is a key asset in delivering projects that meet the needs of a global clientele.

# Our Vision

Looking forward to be the preferred engineering consultancy partner globally, recognized for our expertise, integrity, and commitment to excellence.

# Our Mission

Providing safe, economical designs with high efficiency, starting from the design stage until implementation, with a team of engineers and technicians in various engineering fields, such as architectural, construction, electrical, and mechanical fields. work on every project, starting from the planning and measuring till the last stage, through appropriations,

calculating quantities and costs, to supervising the execution, which includes the electrical and mechanical engineering and interior design. We offer it professionally and with high quality to achieve the best results and gain the confidence of our customers.

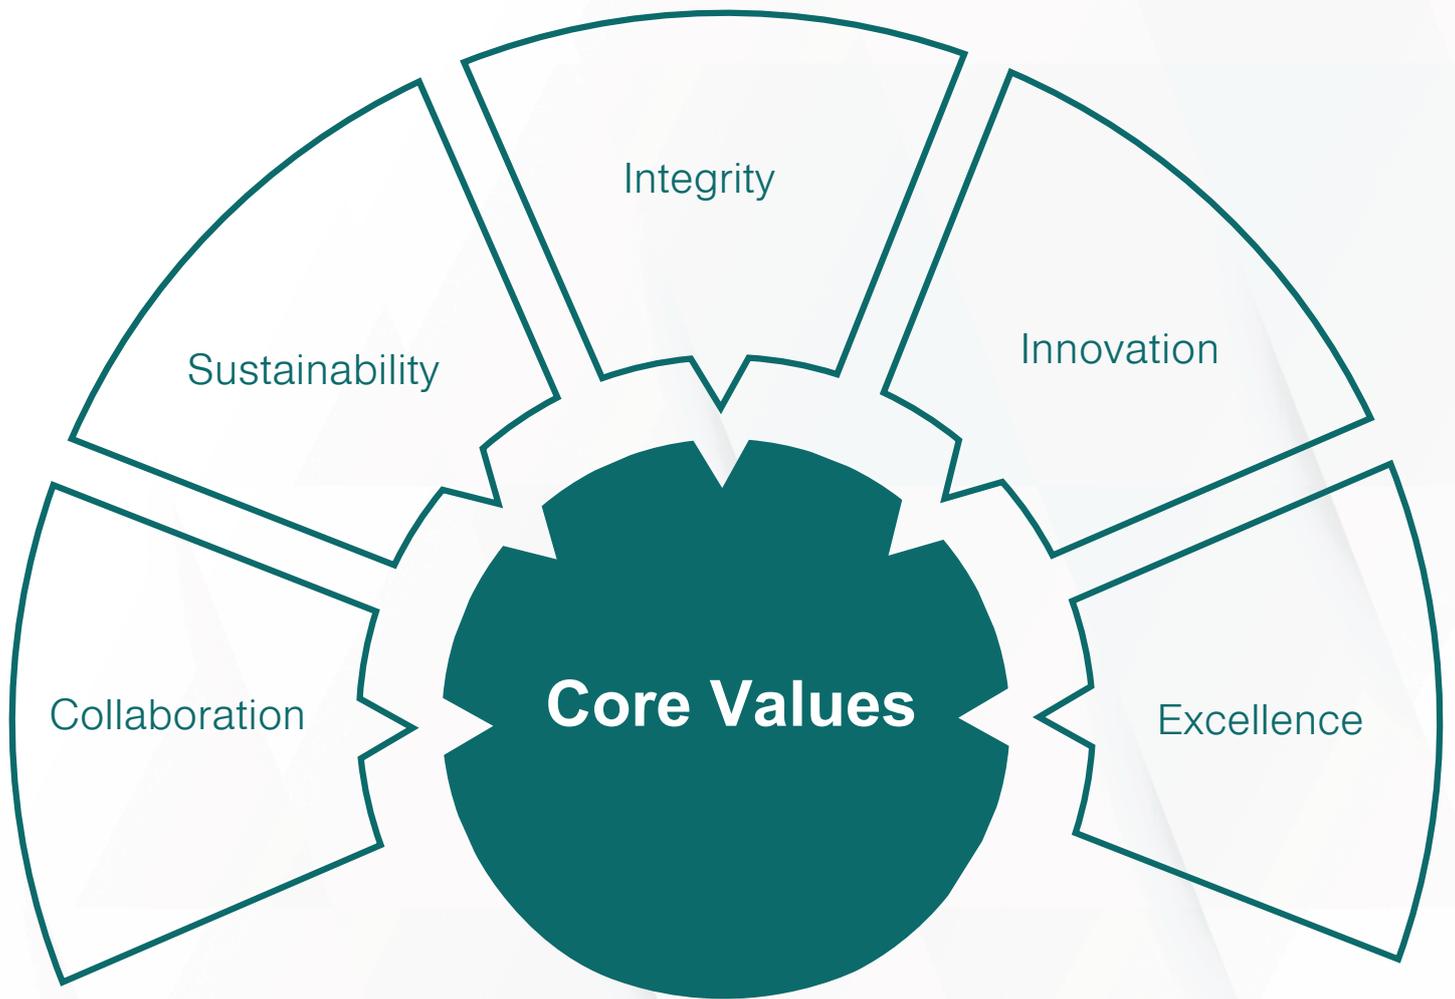

## Our Goals

The Smart Vision team strives to effect constructional development in the United Arab Emirates and Egypt by keeping the latest trends in engineering designs with a sustainable impact.

We always work through our governmental, residential, commercial, and industrial projects to make a difference in design, supervision, and implementation.

- Excellence: Delivering high-quality solutions that exceed client expectations.
- Innovation: Embracing new technologies and methodologies to solve complex challenges.
- Integrity: Upholding the highest ethical standards in all our operations.
- Sustainability: Designing solutions that minimize environmental impact and promote sustainable development.
- Collaboration: Working closely with clients, partners, and stakeholders to achieve shared success.

# Our Projects

At Smart Vision group we take immense pride in our extensive track record of delivering excellence across the UAE. With over **3,000** successfully projects, we have established ourselves as one of the most trusted and experienced engineering

consultancy firms in the region. Our portfolio spans all types of buildings and infrastructure, reflecting our versatility, expertise, and commitment to quality.

#### Diverse Project Portfolio

Our **3,000+** projects encompass a wide range of sectors and building types, including:

- Residential Developments: High-rise towers, villas, and affordable housing complexes.
- Commercial Buildings: Office buildings, retail malls, and mixed-use developments.
- Industrial Facilities: Warehouses, factories, and logistics hubs.
- Healthcare Facilities: Hospitals, clinics, and medical centers.
- Educational Institutions: Schools, universities, and training centers.
- Hospitality Projects: Hotels, resorts, and leisure destinations.

### Key Achievements

- Consistent Quality: Every project is delivered to the highest standards of safety, functionality, and sustainability.
- Timely Delivery: We have a proven track record of completing projects on time, even under challenging conditions.
- Client Satisfaction: Our repeat business rate of **60%** is a testament to the trust and satisfaction of our clients.

We provide a full spectrum of engineering consultancy services tailored to meet the diverse needs of our clients across various sectors. With expertise spanning architectural, structural, mechanical, and project management disciplines, we deliver innovative, sustainable, and efficient solutions at every stage of the project lifecycle.

## Architectural Design Services

- Conceptual and detailed architectural designs tailored to meet aesthetic, functional, and sustainability requirements.
- 3D modeling and visualization to help clients visualize spaces and design concepts before execution.
- Integration of green building practices and energy-efficient designs to meet sustainability standards.

# Structural Engineering

- Structural analysis and design for buildings, bridges, and infrastructure projects, ensuring safety, stability, and durability.
- Use of advanced structural simulation tools to test and optimize load-bearing performance.
- Seismic and wind-resistant designs for projects in varying geographical and environmental conditions.

# Mechanical, Electrical, and Plumbing (MEP) Design

- Comprehensive MEP system design, including HVAC, water supply, drainage, electrical networks, and fire protection systems.

- Energy-efficient system designs to reduce operational costs and environmental impact.
- Integration of MEP services within BIM models for seamless coordination during construction.

# Building Information Modeling (BIM) Integration

## Advanced Solutions with BIM Technology

Our company leverages Building Information Modeling (BIM) technology to deliver precise, efficient, and high-quality engineering consultancy services. BIM allows us to integrate architectural, structural, and mechanical designs into a unified, data-driven model, enhancing the project's lifecycle from conception to completion.

- End-to-end BIM solutions to optimize design, construction planning, and project management.
- Enhanced clash detection to minimize design conflicts and construction rework.
- Real-time updates and design modifications for cost-effective project execution.

# Project Management and Supervision

- End-to-end project management services, from initial planning and design to construction supervision and project handover.
- Cost control, scheduling, and quality assurance throughout the project lifecycle.
- On-site supervision to ensure adherence to design specifications, safety, and quality standards.

# Sustainable Design and Green Building Consultancy

- Application of sustainable engineering practices to minimize environmental impact.
- Design of energy-efficient buildings, optimized water usage systems, and sustainable materials selection.
- Guidance on achieving LEED and other environmental certifications.

# Feasibility Studies and Technical Assessments

- Conducting in-depth feasibility studies to assess project viability, costs, and potential challenges.
- Technical risk assessments, environmental impact analysis, and cost-benefit evaluations.

# Value Engineering

- Optimizing designs to achieve maximum functionality while minimizing costs.
- Proposing alternative construction materials, methods, and systems to improve efficiency.
- Ensuring long-term operational benefits without compromising quality or performance.

# AOR (Authority of Record) Services

- Managing regulatory approvals and ensuring compliance with local and international standards.
- Code compliance checks, documentation certification, and on-site inspections.
- Liaison with government authorities to secure timely permits and approvals.

# Interior Design Services

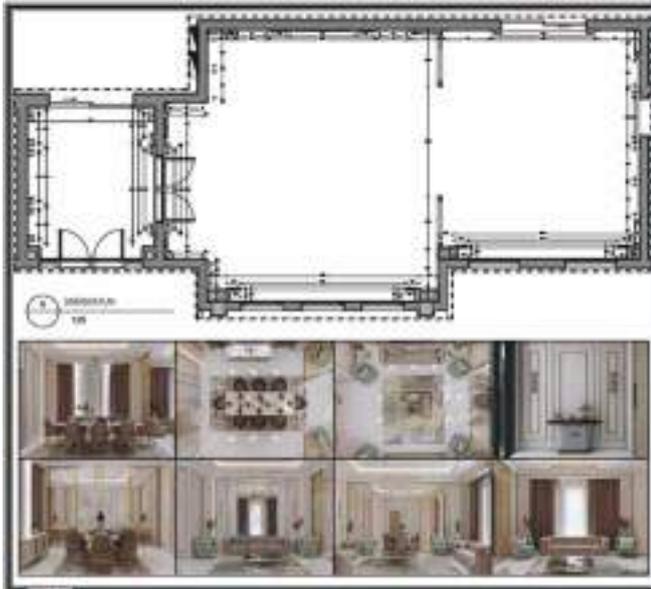

Our interior design team creates innovative, functional, and aesthetically pleasing spaces tailored to meet client needs across residential, commercial, and institutional projects. With a focus on blending form and function, we deliver customized interiors that elevate the overall experience while ensuring efficient space utilization.

Key Services We Offer:

1. Space Planning and Layout Design:
  - Strategic planning of interior spaces to optimize flow, functionality, and comfort.
  - Creation of detailed floor plans and zoning concepts to maximize space efficiency.
  - Integration of architectural elements to complement the overall design theme.

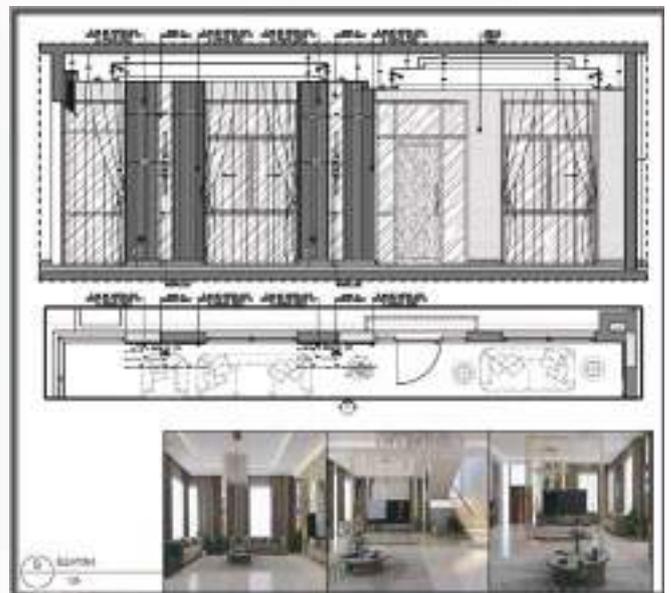

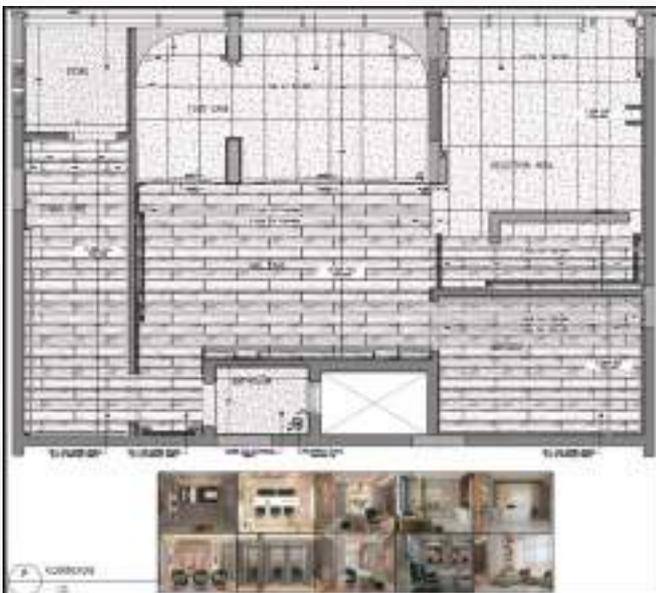

# Interior Design Services

## 2. Custom Interior Design Concepts:

- Developing of unique and personalized design concepts that reflect the client's vision.
- Modern, classic, and contemporary styles tailored to residential, commercial, and hospitality settings.
- Concept boards, material palettes, and mood boards to visualize the overall design scheme.

# Interior Design Services

## 3. Material and Finishes Selection:

- Expert selection of high-quality materials, textures, and finishes, including flooring, wall treatments, and ceilings.
- Integration of sustainable and eco-friendly materials for environmentally conscious projects.
- Coordination with suppliers to source premium furniture, fixtures, and decorative elements.

## 4. Lighting Design:

- Comprehensive lighting solutions, including ambient, task, and accent lighting to create the desired mood and functionality.
- Integration of smart lighting systems and energy-efficient technologies to enhance sustainability.
- Coordination between natural and artificial lighting for optimal interior ambiance.

## 5. Furniture and Fixture Selection:

- Custom furniture design and sourcing tailored to match the project's theme and requirements.
- Selection of ergonomic and aesthetically pleasing furniture for residential, office, and commercial spaces.
- Integration of custom cabinetry, millwork, and fixtures that enhance both form and function.

## 6. Color and Texture Consultancy:

- Strategic selection of color schemes and textures to evoke the desired mood and atmosphere.
- Color psychology implementation to enhance productivity, comfort, or luxury, depending on project type.
- Matching textures and materials to harmonize with architectural and structural elements.

## 7. Sustainable Interior Design:

- Application of eco-friendly practices, such as energy-saving lighting, recycled materials, and natural ventilation.
- Green certification guidance for clients interested in achieving sustainability standards (e.g., LEED-certified interiors).

# Interior Design Services

## 8. Smart and Integrated Technologies:

- Design and installation of smart home systems, including automated lighting, HVAC control, and security solutions.
- Integration of technology into interiors without compromising aesthetics.
- Audio-visual system planning for conference rooms, theaters, or residential entertainment spaces.

## 9. Interior Project Management and Supervision:

- Comprehensive supervision of design implementation, ensuring that work aligns with approved concepts and timelines.
- Quality control and coordination with contractors, suppliers, and subcontractors.
- Budget management to ensure cost-effective design execution without compromising quality.

## 10. 3D Visualization and Virtual Walkthroughs:

- Detailed 3D renderings and virtual walkthroughs to help clients visualize and approve the final design before execution.
- Use of advanced design software to provide realistic, interactive previews of interior layouts and finishes.

# Why Choose Us?

Our engineering consultancy services are distinguished by our commitment to excellence, innovation, and sustainability. By leveraging advanced technologies such as BIM and maintaining strong ties with government authorities, we ensure that every project is delivered efficiently, safely, and in full compliance with regulations. From concept to completion, we are dedicated to exceeding client expectations and adding long-term value to their investments.

- Expert Team: Our team comprises licensed engineers, industry veterans, and technical specialists with diverse expertise.
- Client-Centric Approach: We prioritize client needs and work collaboratively to deliver tailored solutions.
- Proven Track Record: Successful delivery of 3000 projects across UAE.
- Commitment to Sustainability: We integrate green practices into every project to reduce environmental impact.
- Cutting-Edge Technology: Utilization of advanced tools like BIM, CAD, and simulation software for precision and efficiency.
- Tailored Solutions: We customize designs to meet the unique tastes, needs, and objectives of each client.
- Multidisciplinary Expertise: Collaboration between architects, engineers, and interior designers ensures a holistic approach to every project.
- Sustainable and Future-Proof Designs: We balance aesthetics with long-term functionality and environmental responsibility.
- Cutting-Edge Technology: Our use of BIM and advanced visualization tools allows for efficient coordination and design accuracy.
- With a reputation for creating elegant, functional, and sustainable interiors, we are committed to transforming spaces into environments that inspire, comfort, and perform.

# How Our Experience Benefits You

With over 3,000 projects under our belt, we bring unparalleled expertise and insights to every new endeavor. Here's how our experience translates into value for your project:

## 1. Deep Market Knowledge:

Our extensive experience in the UAE gives us a deep understanding of local regulations, market trends, and client expectations.

## 2. Proven Solutions:

We have encountered and overcome a wide range of challenges, enabling us to provide proven, practical solutions tailored to your needs.

## 3. Efficiency and Precision:

Our familiarity with diverse project types allows us to streamline processes, reduce risks, and deliver results with precision.

## 4. Innovation and Adaptability:

Having worked on projects of all scales and complexities, we are adept at integrating innovative technologies and adapting to evolving requirements.

## Highlighted Projects

Here are a few examples of our notable projects in the UAE:

# Our Clients

We are proud to have worked with a diverse range of clients, including:

# Our Team work

## Expertise and Collaboration

At smart vision group our greatest asset is our team of highly skilled professionals. More than **120 engineers** bring

## Key Strengths of Our Team

### 1. Multidisciplinary Expertise:

Our team comprises specialists in structural, civil, mechanical, electrical, and environmental engineering, as well as project management and sustainability. This multidisciplinary expertise allows us to tackle projects of any scale and complexity with confidence.

# Our Team work

## 2. Industry Experience:

Our team with an average of 13 year of experience in the industry, our team has a deep understanding of the technical, regulatory, and operational aspects of engineering projects. We have successfully delivered projects.

## 3. Commitment to Continuous Learning:

We invest in the professional development of our team through training, certifications, and exposure to the latest technologies and industry trends. This ensures that we stay at the forefront of engineering innovation.

## 4. Collaborative Culture:

Collaboration is at the heart of our success. Our team works closely with clients, contractors, and stakeholders to ensure that every project is aligned with the client's vision and goals. We believe that open communication and teamwork are essential for delivering high-quality results.

## 5. Problem-Solving Mindset:

Our team thrives on challenges. We approach every project with a problem-solving mindset, leveraging our collective expertise to find creative and practical solutions that meet the unique needs of each client.

## 6. A Culture of Excellence and Innovation

Our team is united by a shared commitment to excellence, innovation, and client satisfaction. We foster a culture of collaboration, where every team member's voice is valued, and ideas are encouraged. This collaborative spirit enables us to deliver projects that not only meet but exceed expectations.
